

May 7, 2021

Dear Families,

It has been great to see some of you spending time with your loved ones as we have been able to continue opening the building. For those of you who I have not yet seen, I look forward to doing so. We have had another week of negative tests which allows us to continue on the path to normalcy. We have opened the dining room to meals for residents and have seen the smiles on the residents who have taken advantage of the hairdresser.

At this point the only change in policy is in regard to residents on quarantine. Beginning Monday, all residents that are on quarantine will be allowed window visits regardless of where their window faces. Visitors will be able to walk through the building to the courtyard to enjoy their visit. We continue to look forward to the return to normal and appreciate everyone doing their part to keep all of our residents safe. As always if you have any questions, please feel free to reach out to me.

Sincerely,

Nathan Moffie, Administrator
